12	Rath mines C	4		16						

At the end of the day Rathmines B won the Heidenfeld trophy as a result of their individual match against Blanchardstown as both teams finished on the same number of points and both teams put up big scores on the final day. Blanchardstown gave one walkover and this is the margin between winning and finishing second if they had got a half point from this it would be another story.

Inchicore B and Rathmines C were the two teams to be relegated.

On the second table I have taken the liberty to show what would have happened if match point were used as opposed to game points. Here the relegation would have been the same but the top of the table would have been different with Blanchardstown becoming the winners and Ballinasloe getting the second promotion spot. This might be something for the members to consider at the next agm.

The number of walkovers were low at three and the number of defaults was only one and this occurred on the last day.

The largest panel was used by Ballinasloe with 20 players playing for them while Elm mount and Inchicore B made do with 11 players Again I have enclosed the panel numbers on the second table.

There were no major issues or disputes and I would like to thank all team captains for their help throughout the year.
